

Our family would like to voice our support for keeping the K-Love radio signal going strong in our area. There is no station that could be more needed on our airways. The Low Power FM should not be given priority over our listener supported station. K-Love has provided positive and encouraging music that is vital for our communities all around the nation. Do not let this rare life giving signal be silenced. Thank you for your consideration and action on behalf of hundreds of thousands of listeners to preserve K-love.

Sincerely, the Knuth family
